

## Instruction for Roller Shade System IV

1. Assemble, Install and Program the Roller Shade System first. Please read this instruction file:

<https://www.dropbox.com/s/8i5bmnuzaq5wxis/Simplified%20Instruction.pdf?dl=0>

2. After the Roller Shade System is set up and operated by the Remote Control, insert the WiFi adapter cable to the 6-pin port on the Roller Motor as follow:

Insert the cable to the 6-pin port **carefully**.

2. To set up the Smart Phone Control, please read the instruction file:

<https://www.dropbox.com/s/uggkdtdu9wdqvbm/Smartphone%20Control%20%20Instruction-3.pdf?dl=0>

The above file is for Automatic Curtain System. To use it with Roller Shade System, most of the setup are exactly the same except there are a few changes as follow:

- i) Page 5, Scan the QR code on the WiFi adapter cable instead of on the curtain motor.
- ii) Page 5, select "Roller Shade" instead of "Curtain".
- iii) To operate the shade, Use a finger to touch and hold the shade, then move the finger up or down. (instead of moving the finger left or right to open/close a curtain)
